

Key Instant Recall Facts

FOUNDATION STAGE KIRF CARD

This term your children are working towards achieving their individual KIRF targets, indicated below. The ultimate aim is for your child to be able to recall these facts **instantly!**

To be able to recall one more/less than a given number to 10

By the end of this half term, children should be able to recall one more of less than any given number to 10.

The aim is for them to recall these facts **instantly**.

Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact of the day. Building confidence in mathematics is crucial so be pleased with their efforts and always encourage with praise. Make sure these practice sessions are enjoyable - if your child is really not in the mood it is the wrong time to be practising! If you would like more ideas, please speak to your child's teacher.
